EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Heckadon on November 7, 2007.

The application has been amended as follows:

Claim 1: replace "may" in the last line with "has capability to".

Allowable Subject Matter

2. Claim 1-3 and 5-15 are allowed.

3. The following is an examiner's statement of reasons for allowance: The present invention is directed to a device for dynamically allocating bandwidth to a plurality of personality module cards. The prior arts in the record fail to teach or make obvious to a device comprising an interface circuit comprising a plurality of bits hardwired to the plug-in physical slots wherein each plug-in physical slots has both dedicated data bits and data bits shared between neighboring plug-in physical slots within a structure of the claim. These features are claimed in the independent claim 1 and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
